BUILDING GEORGIA'S SKYLINE

(ONE STORY AT A TIME)

Construction at 1010 Midtown and 1075 Peachtree Atlanta, GA

During more than 25 years in business, more than 3,000 field employees have completed 21 million manhours of work

On the company's behalf, I want to thank our clients for the past 25 years. Through your continued support and commitment we have been able to build many of Georgia's most recognizable buildings. These projects, ranging from state of the art medical facilities to large mixed use complexes, have combined for more than \$5 billion in the state since 2000.

These projects have allowed our company to enjoy tremendous success and growth. More importantly, through these projects we have had the opportunity to build and grow relationships with our

clients that have developed into true friendships. These friendships are our greatest accomplishment over the past 25 years and we are extremely grateful to all of you for your support of our company and project teams.

Our first 25 years in this market have been filled with many great memories. I look forward to many more years of successful projects with both new and old friends.

Rob Taylor,
Regional President

Children's Healthcare of Atlanta at Egleston Atlanta, GA

"Egleston was one of the biggest C.O.N. projects that the state of Georgia had ever experienced. We were doing surgeries every single day, and to have rock blasting in the middle of that for a month for every day was a challenge. We had very close coordination, and I don't think Brasfield & Gorrie and the subcontractors missed it one time."

Dan Maxwell, Construction Project Director,
Children's Healthcare of Atlanta, Egleston project

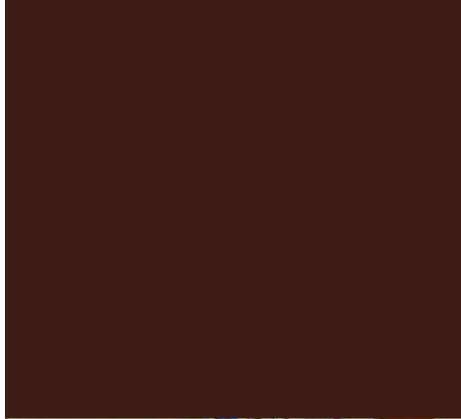

Brasfield & Gorrie has built Georgia's economy, constructing 20 million square feet of office buildings

"B&G is an invaluable team member, not only within the walls of the predevelopment team, but the quality relationships they build and maintain with their subs insures a higher quality job that is always on time and at the best value possible. As further affirmation, circumstances did dictate a competitive bid situation for a couple of jobs, and B&G won the job hands down... the proof is in the pudding."

De Little, President,
Greenstone Properties

Newell Rubbermaid Headquarters, Two Glenlake Atlanta, GA

TEAMWORK

Brasfield & Gorrie is committed to creating more Georgia success stories. Investing in new 3D modeling technologies like Building Information Modeling (BIM) and Integrated Project Delivery (IPD), Brasfield & Gorrie will continue to increase construction productivity and break ground on buildings that are the envy of the world.

Brasfield & Gorrie has completed more than 5 million square feet of interior buildouts, and

The Weather Channel Studio Addition Atlanta, GA

We'll put our Leadership in Energy and Environmental Design (LEED) accreditation and Building Certification experience to work for our clients and the communities we serve. Named the #1 Green Contractor in the Southeast, we remain committed to building facilities that are more energy efficient and have less environmental impact.

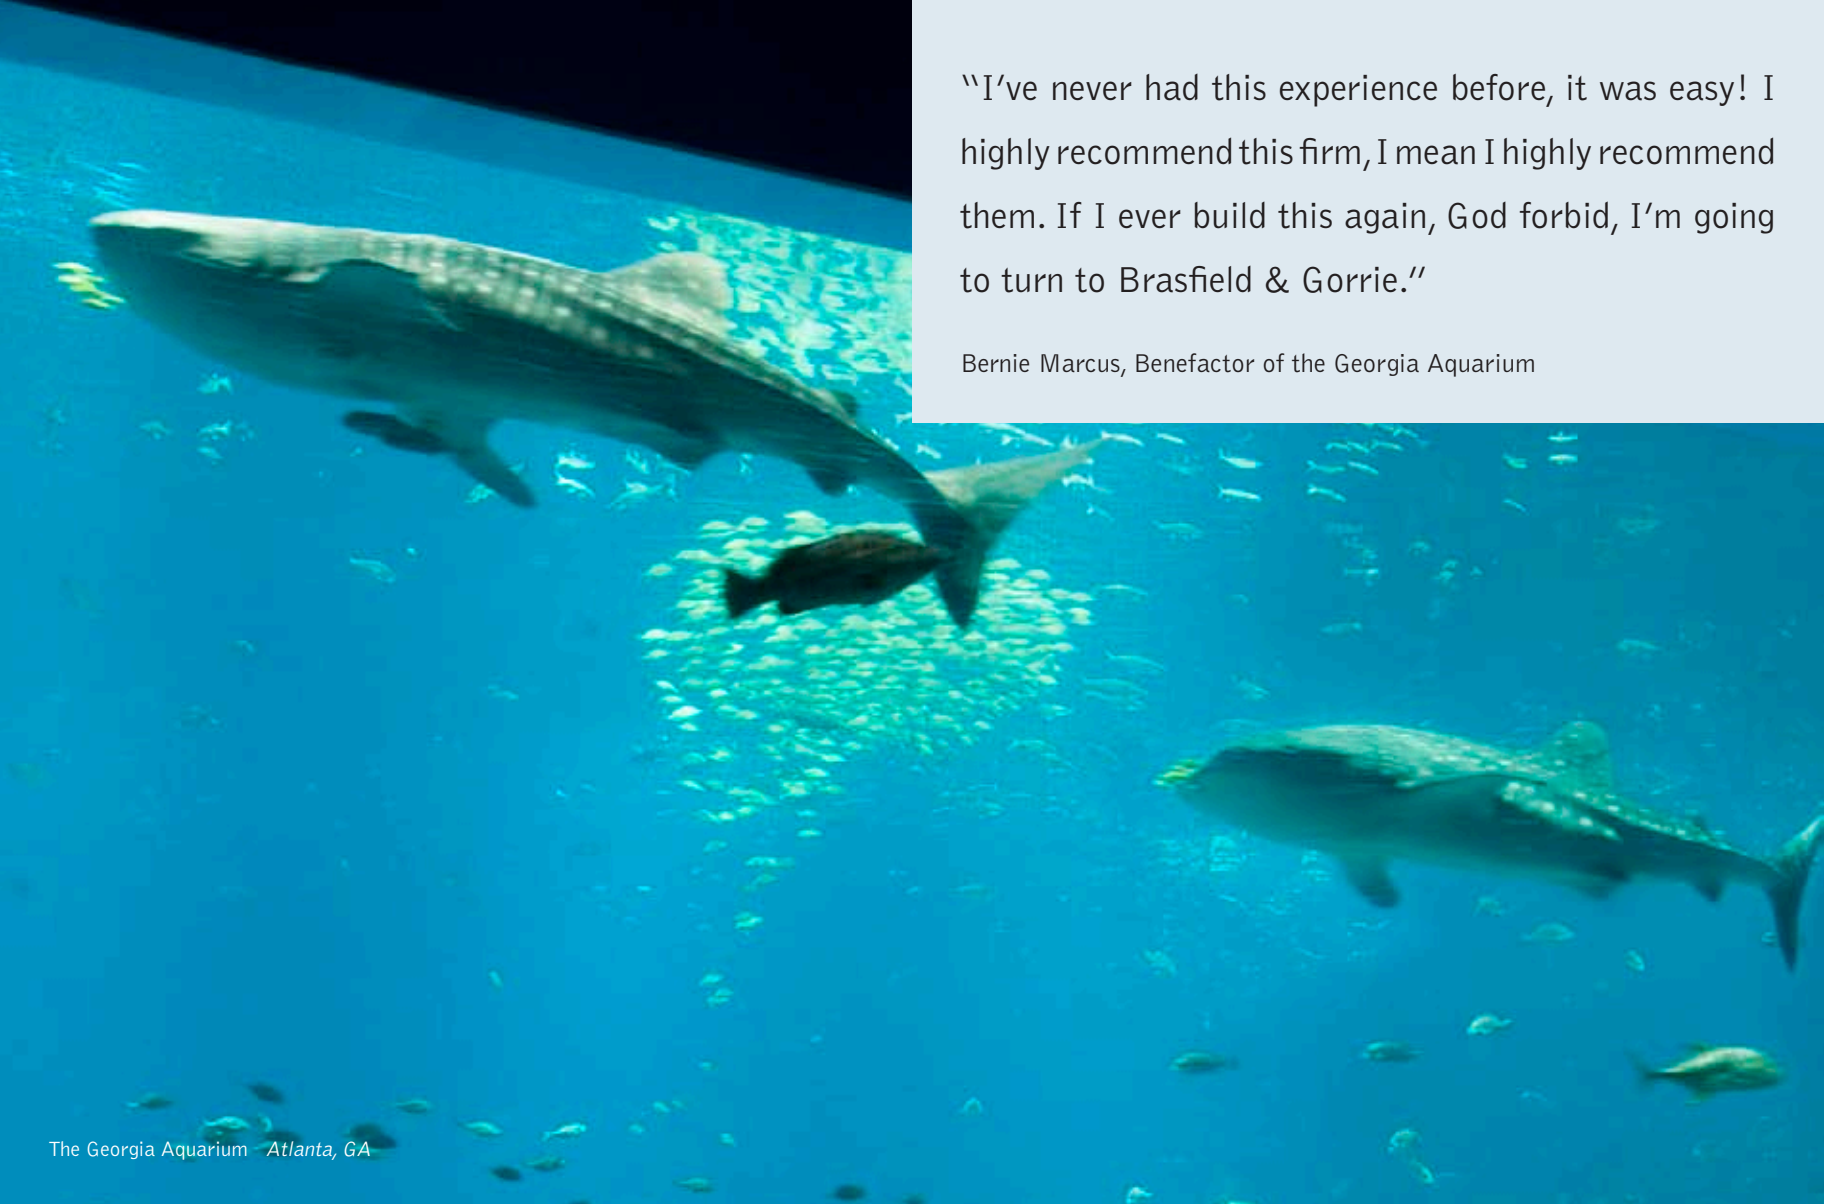

we have helped house Georgians, building more than 6,000 residential units across the state

"Brasfield & Gorrie has been a tremendous partner, bringing the best in leadership and teamwork to every project; projects of this magnitude cannot be successful without those two qualities. They continue to play an integral role in changing our city!"

Steven G. Baile, Sr. Vice President,
Daniel Corporation

1075 Peachtree Atlanta, GA

“I’ve never had this experience before, it was easy! I highly recommend this firm, I mean I highly recommend them. If I ever build this again, God forbid, I’m going to turn to Brasfield & Gorrie.”

Bernie Marcus, Benefactor of the Georgia Aquarium

The Georgia Aquarium Atlanta, GA

In 2005, Brasfield & Gorrie completed the world’s largest aquarium, the Georgia Aquarium in downtown Atlanta

“Perkins+Will and Brasfield have worked side by side on many projects together positively shaping our local community in Atlanta. Paideia School is the most recent example of our successful collaboration. Great teamwork is how our design team described the value of Brasfield’s project leadership. Brasfield delivered a well constructed building on a historic neighborhood campus that resulted in a happy client.”

Willard Lariscy, Managing Director,
Perkins+Will

The Paideia School Atlanta, GA
